SUMMARY

I am a motivated, reliably, compassionate individual who is seeking to grow my knowledge in the software industry and use my background in sales and marketing to advance my skills in web development.

WEB DEVELOPMENT EXPERIENCE

Vegan: Eats | <http://veganeats.surge.sh/>

- Created a website application for vegan and vegetarians to dine out at local
- restaurants and grocery stores in *Salt Lake City, UT*.
- Used React to create the front-end, responsive, and Google Maps is integrated to the application.

Built with JavaScript, ReactJS, HTML/CSS

Trivia Game | <http://triviagame.surge.sh/>

- A CRUD single-page application built with React.
- Each trivia question is generated by an API which is requested by an Axios command.

Built with JavaScript, ReactJS, npm Axios, API, HTML/CSS

Garden Game | <https://gardengame.herokuapp.com/>

- A CRUD single-page application built with React on the front-end.
- Used Node.js/Express as the back-end server and Mongoose and MongoDB for the database.
- A Learning game about gardening for children.

Built with JavaScript, ReactJS, Node.js, Express, MongoDB, Mongoose, HTML/CSS

WORK EXPERIENCE

ACCOUNT EXECUTIVE

Womply | Lehi, UT | 2018-2019

- Sold Womply's CRM platform that provides online reputation management tools, marketing automation features, and business intelligence to SMB accounts.
- Searched and prospected for new business opportunities by making 150+ daily cold calls and follow up on leads in order to ensure a healthy pipeline.

GENERAL MANAGER

Trolley Wing Company | Salt Lake City, UT | 2014 – 2017

- Directed the restaurant's operations including planning, recruiting, organizing, training, and controlling for 30 employees.
- Maintained long-term vendor relationships, negotiating with 5 vendors on lowering the cost of draught beer and exceeding sale quotas by 10%.

EDUCATION
